About Me

I'm a React Developer with a Graphic Designer complex.

Just kidding! As a matter of fact, I love both logical and creative worlds that merge together through tech. Every good idea has a back-end and a front-end waiting to be developed, and both of them are as breathtaking as the other to me.

Education

High School Degree

Don Bosco Technical High School
Feb 2019 - Dec 2021

Software Development High School Level Degree

Don Bosco Technical High School
Feb 2019 - Dec 2021
